

# JOIN OUR NATURE YOUTH COUNCIL!

Part of the NunatuKavut Action Team  
on Understanding Renewable Energy

*Empowering NunatuKavut youth by building skills and capacity in sustainable and clean energy development for the future.*

## What would I be doing?

- Working in a paid part-time position (over 100 hours of work from March to June)
- Learning why research is important in your community
- Becoming a sustainable energy researcher
- Learning how to collect and analyze your own data
- Organizing community-driven sustainable energy events
- Identifying and developing tools to share knowledge with your community and beyond
- Connecting with other youth in NunatuKavut
- Learning about and participating in NunatuKavut sustainability efforts

## What are the benefits?

- Paid part-time employment that gives you over 100 insurable hours
- Prize draw for participants
- Great resume-building experience
- Support your college or university application
- Improve the sustainability of your community

## What is the criteria?

- Youth ages 15-30 are targeted. Younger and older learners are welcome to participate
- Individuals must be from one of the following NunatuKavut communities: Cartwright, Black Tickle, Charlottetown, Pinsent's Arm, Norman Bay, Port Hope Simpson, St. Lewis/Fox Harbour, Mary's Harbour or Lodge Bay
- Participation in a three-hour training workshop
